Press Release

Thermal Design Announces Addition to Marketing Staff

Increasing Public Relations/Marketing Capabilities from Stoughton Office

Stoughton, Wisconsin—April 8, 2002—Thermal Design, Inc. is proud to announce the hiring of Paul Britain to their Midwest office in Stoughton, Wisconsin.

Paul is a graphic designer with a background in advertising and public relations. He graduated from Union College with a Communications degree in 1999. After he and his wife moved to Dayton, Ohio, he worked at The Next Wave, an advertising firm, and Relizon, a world-wide business communications company. Both positions aided his professional growth by providing invaluable experience in video production, ad design, and variable data printing.

Paul will fill a graphic design position at Thermal Design and will add a greater public relations/advertising element to the Midwest office staff.

Thermal Design, Inc., a recognized innovator in the insulation industry, creates effective insulation solutions based on easy-to-install building systems, accessories and concepts. Based in Madison, Nebraska, Thermal Design is a nationwide company that develops and manufactures patented products and services, delivering full in-place R-values and OSHA accepted fall protection for pre-engineered metal buildings.
