

SIMPLE SAVER SYSTEM®

The Simple Saver System increases productivity for manufacturing facilities.

Successful manufacturers constantly pursue new methods that may give them a competitive advantage in the marketplace. If your day to day challenges include staying on time and on budget while controlling operating costs to grow your manufacturing business, Thermal Design's Simple Saver System can help. The Simple Saver System was designed to reduce common building maintenance as well as provide a comfortable working indoor temperature for your employees and machinery, thus increasing productivity.

The Simple Saver System strives to be the best insulation system on the market for manufacturers, allowing them to reduce their operational costs. The System provides:

- Full, uncompressed installed R-values of insulation.
- Lower monthly energy costs with up to 50% reduction in HVAC equipment.
- The capability of extending the life of the building by increasing the strength of the structure with the steel straps as well as minimizing the three heat transfers commonly associated with metal buildings (conduction, convection and radiation).
- Class A fire safety rating that may assist in reducing property insurance premiums.
- The ability to control and maintain uniform temperatures to increase the comfort of customers and employees. Studies show there is a direct correlation between employee comfort levels and productivity.
- Easy accessibility for various ceiling hangers for attaching common items while preserving the integrity of the vapor retarder.
- A bright and clean interior requiring fewer light fixtures with light reflectivity up to 85%.
- Better acoustics with higher sound absorption (75% noise reduction).
- Free design-build energy analysis sales materials.

The Simple Saver System has helped thousands of businesses minimize their energy consumption and maintain a quality working environment for their employees. If you are building new or contemplating retrofitting an existing facility, consider using the Simple Saver System in your next project. Call Thermal Design today at (800) 255-0776 for more information on why the Simple Saver System is the best solution for your facilities.
