

# Simple Saver System®

## Lowers Operating Costs for Retailers Across the Country

Our goal is to enable owners to reduce energy consumption and maintenance costs while providing an efficient, bright and comfortable retail environment for increased customer satisfaction. The Simple Saver System® allows retailers to get more return on investment by minimizing operating costs and increasing revenues, directly affecting their bottom line. While much focus and attention is paid to the outside of the building, remember that “it’s what’s inside that counts.”

Simple Saver System strives to be the best insulation system on the market for retail stores, providing:

- **Higher installed R-values** - economically creates the required space for designed insulative thickness.
- **Lower energy costs** - with up to 50% reduction in HVAC equipment.
- **Easy accessibility** - for various ceiling hangers for attaching common items such as signs, lights, ductwork etc., while preserving the integrity of the vapor retarder.
- **Bright and clean** - interior requiring fewer light fixtures, while maintaining designed light levels.
- **Better acoustics** - with higher sound absorption (75% noise reduction).
- **Improved appearance** - for a customized, attractive, interior appearance. (White, Super White, Black, Silver Aspen, Tonn Taupe™)
- **Improve envelope** - minimizing heat transfers commonly associated with metal buildings (conduction, convection and radiation) that lead to heat gain and loss.
- **Extended building life** - by increasing the strength of the structure with the steel straps as well as minimizing the three heat transfers commonly associated with metal buildings (conduction, convection and radiation).
