SAFETY DATA SHEET
Emergency Phone: Chemtrec 800-424-9300

SDS Name: G220 Simple Saver Pressure Sensitive Sealant™
Issue Date: October 26, 2015

Section 1 - Product and Company Information
Product Name: G220 Simple Saver Pressure Sensitive Sealant™
Company Identification: Thermal Design, Inc, 601 N. Main St. Madison, NE 68748
Information phone: (402) 454-6591
Application: Aerosol Spray

Section 2 - Hazards Identification
Classification of the substance or mixture:

Physical Hazards:
Aerosol 2 - H223, H229 Press. Gas, Compressed - H280
Acute Tox. 3 - H301 Skin Irrit. 2 - H315 Eye Irrit. 2A - H319 Carc.
2 - H351 STOT SE 3 -H335, H336 STOT RE 2 - H373

Health hazards:
The liquid may be irritating to eyes, respiratory system and skin.
Symptoms following overexposure may include the following: Head

Environmental hazards:
Not Classified

Human health:

Label Elements

Signal word: Danger

Hazard statements:
H223 Flammable aerosol.
H229 Pressurized container: may burst if heated.
H280 Contains gas under pressure; may explode if heated.
H301 Toxic if swallowed.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H335 May cause respiratory irritation.
H336 May cause drowsiness or dizziness.
H351 Suspected of causing cancer.
H373 May cause damage to organs through prolonged or repeated
exposure.

Precautionary statements:
P210 Keep away from heat, sparks, open flames and hot surfaces. No
smoking. P211 Do not spray on an open flame or other ignition source.
P251 Do not pierce or burn, even after use.
P280 Wear protective gloves/protective clothing/eye protection/face
protection.
P308+P313 If exposed or concerned: Get medical advice/attention.
P410+P403 Protect from sunlight. Store in a well-ventilated place.

Supplemental label information
Contains
AT(o) 15.0% of the mixture consists of ingredient(s) of unknown acute
oral toxicity. Methylene Chloride, Propane, Isobutane

Other hazards:
This product does not contain any substances classified as PBT or
vPvB.
3. Composition/information on ingredients

Product Name:

Substances
Mixtures

Methylene Chloride CAS number: 75-09-2
REACH registration number: 01-2119480404-41-XXXX
30-60%

Classification:
Acute Tox. 3 - H301, Acute Tox. 4 - H312, Skin Irrit. 2 - H315, Eye Irrit. 2A - H319, Carc. 2 - H351, STOT SE 3 - H335, H336 STOT RE 2 - H373

Isobutane
CAS number: 75-28-5
10-30%

Classification:

Propane:
CAS number: 74-98-6
10-30%

Classification:
Acute Tox. 4 - H332
Simple Asphyxiant - USH03

The Full Text for all Hazard Statements are Displayed in Section 16.

4. First-aid measures

Description of first aid measures

General information:
Remove affected person from source of contamination. Place unconscious person on their side in the recovery position and ensure breathing can take place. Get medical attention if any discomfort continues.

Inhalation:
Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention.

Ingestion:
Get medical attention immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.

Skin Contact:
Remove affected person from source of contamination. Wash skin thoroughly with soap and water. Remove contaminated clothing. Get medical attention if any discomfort continues.

Eye contact:
Remove any contact lenses and open eyelids wide apart. Only remove contact lenses if the person is conscious, coherent and they can remove them themselves. If adhesive bonding occurs, do not force eyelids apart. Continue to rinse for at least 15 minutes. If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.

Most important symptoms and effects, both acute and delayed

General information
The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Inhalation:
Symptoms following overexposure may include the following: Upper respiratory irritation. Difficulty in breathing. Drowsiness. May cause nausea, headache, dizziness and intoxication.

Ingestion:
Harmful if swallowed. Prolonged or repeated exposure may cause the following adverse effects: Gastrointestinal symptoms, including upset stomach. Diarrhea.

Skin contact:
Prolonged contact may cause redness, irritation and dry skin.

Eye contact:
Risk of serious damage to eyes. Symptoms following overexposure may include the following: Irritation and redness, followed by blurred vision.
5. Fire-fighting measures
Extinguishing media
Suitable extinguishing media: Extinguish with alcohol-resistant foam, carbon dioxide or dry powder.
Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.
Special hazards arising from the substance or mixture
Specific hazards:

Advice for firefighters
Special protective equipment for firefighters: Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

6. Accidental release measures
Personal precautions, protective equipment and emergency procedures
Personal precautions: For personal protection, see Section 8. No smoking, sparks, flames or other sources of ignition near spillage.
Environmental precautions: Avoid discharge into drains. Contain spillage with sand, earth or other suitable noncombustible material.
Methods and material for containment and cleaning up: Methods for cleaning up Stop leak if possible without risk. No smoking, sparks, flames or other sources of ignition near spillage. Avoid the spillage or runoff entering drains, sewers or water courses. Eliminate all sources of ignition. Wash thoroughly after dealing with a spillage. Absorb in vermiculite, dry sand or earth and place into containers. Provide adequate ventilation.

7. Handling and storage
Precautions for safe handling
Usage precautions: Avoid contact with skin and eyes. Keep away from heat, sparks and open flame. Provide adequate ventilation. Avoid inhalation of vapors. Use approved respirator if air contamination is above an acceptable level. Container must be kept tightly closed when not in use. Use explosion proof electric equipment. Avoid discharge into drains or watercourses or onto the ground.
Advice on general occupational hygiene: Do not eat, drink or smoke when using this product.
Conditions for safe storage, including any incompatibilities
Storage precautions: Keep away from heat, sparks and open flame. Keep container tightly closed. Keep only in the original container.
Pressurized container: Must not be exposed to temperatures above 50°C/120°F
Specific end use(s)
Specific end use(s): The identified uses for this product are detailed in Section 1.2.

8. Exposure Controls/personal protection
Control parameters
Occupational exposure limits
Methylene Chloride
Long-term exposure limit (8-hour TWA): ACGIH 50 ppm
Short-term exposure limit (15-minute): OSHA 125 ppm
A3
Isobutane
Long-term exposure limit (8-hour TWA): ACGIH 1000 ppm
Long-term exposure limit (8-hour TWA): NIOSH: National Institute of Occupational Safety and Health 800 ppm 1900 mg/m³
Propane
Long-term exposure limit (8-hour TWA): NIOSH: National Institute of Occupational Safety and Health 1800 mg/m³ 1000 ppm
Long-term exposure limit (8-hour TWA): OSHA 1800 ppm 1000 mg/m³
ACGIH = American Conference of Governmental Industrial Hygienists.
A3 = Confirmed Animal Carcinogen with Unknown Relevance to Humans.
OSHA = Occupational Safety and Health Administration.
Exposure controls

Protective equipment

Appropriate engineering controls: This product must not be handled in a confined space without adequate ventilation. Avoid inhalation of vapors and spray/mists. As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapor or mist.

Eye/face protection: Wear chemical splash goggles.

Hand protection: Use protective gloves.

Other skin and body protection: Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapor contact.

Hygiene measures

DO NOT SMOKE IN WORK AREA! Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke. Wash promptly with soap and water if skin becomes contaminated. Wash hands at the end of each work shift and before eating, smoking and using the toilet.

Respiratory protection: Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit. If exposure levels are likely to be exceeded, use a full face mask fitted with an organic AXP3 filter for short term low level exposures. For long term or high level exposures, compressed airline breathing apparatus should be used.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Appearance: Liquid
Color: Green
Odor Sweetish: Pungent.
Flash point: ~ -156°F Not specified.
Upper/lower flammability or explosive limits:
Lower flammable/explosive limit: 1.8 g/100 g Upper flammable/explosive limit: 9.5 g/100 g
Vapour density: ~ 9.2
Relative density: ~ 1.2
Solubility(ies): Negligibly soluble in water
Volatile organic compound: This product contains a maximum VOC content of 425 g/l.

10. Stability and reactivity

Stability Stable at normal ambient temperatures and when used as recommended.
Conditions to avoid: Avoid heat, flames and other sources of ignition. Reducing agents.
Avoid contact with the following materials: Oxidizing agents.

11. Toxicological information

Information on toxicological effects

Acute toxicity - oral ATE oral (mg/kg): 170.0
Acute toxicity - dermal ATE dermal (mg/kg): 2,200.0
Acute toxicity - inhalation ATE inhalation (gases ppm): 30,000.0
ATE inhalation (vapours mg/l): 73.33333333

Toxicological information on ingredients.

Inventories US - TSCA Present
Isobutane, Methylene Chloride: Present

16. Other information
Revision date: 5/14/2015
Revision: 1
Supersedes date: 8/11/2014
SDS No. 21170
Hazard statements in full:
- H223 Flammable aerosol.
- H229 Pressurized container: may burst if heated.
- H280 Contains gas under pressure; may explode if heated.
- H301 Toxic if swallowed.
- H312 Harmful in contact with skin.
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- H351 Suspected of causing cancer.
- H373 May cause damage to organs through prolonged or repeated exposure.
- USH03 May displace oxygen and cause rapid suffocation

ACA HMIS Health rating: Moderate hazard. (2)
ACA HMIS Physical hazard rating: Normally stable. (0)
ACA HMIS Personal protection rating: B
ACA HMIS Flammability rating: Extremely flammable. (4)
